

Reg. ID : 169466
Name of Patient : MRS. ANKITA PRIYADARSHINI
Age/Gender : 31 years / Female
Refd by Dr. : PRIMUS
Mobile No. : 9716042485
Sample Type : OROPHARYNGEAL & NASOPHARYNGEAL SWAB

Panel Company : PRIMUS HOSPITAL
Lab Request ID : DLL943092
Sample Collection Date : Feb 01, 2022, 03:02 p.m.
Sample Acknowledgment Date : Feb 01, 2022, 03:02 p.m.
Test Reported On : Feb 02, 2022, 03:13 p.m.
SRF ID : 0708503113172

Covid-19 Virus RT-PCR (open system) Qualitative - Centre Visit

Covid-19 RT-PCR (open system) SARS-COV-2 **NEGATIVE**

Method : RT-PCR (open system)

INTERPRETATION

| | |
|--------------|---|
| Negative | RNA specific to SARS-CoV-2 Not Detected |
| Positive | RNA specific to SARS-CoV-2 Detected |
| Inconclusive | This could be due to low viral load in the sample. A repeat sample is recommended for confirmation. |

Disclaimer: Low Viral Load may indicate early incubation or late incubation phase. Two different samples taken at two different times and different conditions shall not be liable for the same results.

Note

- ICMR Registration number for Covid -19 is **DLCLPBD**.
- Negative result does not rule out the possibility of Covid-19 infection. Presence of inhibitors, mutations & insufficient RNA specific to SARSCoV-2 can influence the test result.
- Kindly correlate the results with clinical findings. A negative result in a single upper respiratory tract sample does not rule out SARS-CoV-2 infection. Hence in such cases a repeat sample should be sent. Lower respiratory tract samples like Sputum, BAL, ET aspirate are appropriate samples especially in severe and progressive lung disease
- Covid-19 Test conducted using automated extractor and biorad CFX96 and trupcr rt per kits approved by ICMR
- Kindly consult referring Physician / Authorized hospitals for appropriate follow up

Conditions of Reporting

Laboratory results should be used with other clinical information to determine a final diagnosis. For any unexpected test results please contact the laboratory. Laboratory does not verify the identity or the details of the customer and cannot be held responsible for any misrepresentation or misuse. The results cannot be used for medico-legal purpose. There may be incidences beyond our control which could result in delay of testing. All tests have been carried out with reasonable care, clinical safety & technical integrity, however there could be some factors beyond control which can affect the accuracy of results.

****END OF REPORT****

Do not accept any COVID-19 report without working QR Code. The laboratory shall not be held responsible for any such reports.

Dr Rashmi Bahri
M.B.B.S, M.D (Micro)
Consultant Microbiologist
